PROFILE

Experienced Front-End Developer and an 8th Semester CS Student with half a year of experience working with B2B & SaaS based products. Skilled in both Mobile and Web development. Specialized in HTML, CSS & JS & React Native. Strives for elegance and simplicity in code while focusing on reusability, scalability, and best practices by following design principles. Meticulous, with keen attention to detail, with strong analytical and communication skills. A team player, but can also deliver independently with minimal supervision.

EXPERIENCE

App Development Intern (Remote)
Aug 2023 – Sep 2023

Code Alpha | Lucknow, India

- Developed and optimized a React Native mobile app for railway passengers, automating food ordering and reducing errors, improving user experience.
- Enhanced the app with menu recommendations and integrated a secure wallet feature, streamlining food orders and payments.
- Designed a vehicle maintenance and mileage tracking app, enabling efficient vehicle management and document tracking, with renewal notifications.
- Implemented a user-friendly interface for vehicle data input, mileage tracking, and fuel management, improving vehicle maintenance.
- Proficiently used React Native Hooks, Props, UI toolkits and libraries ,State & Storage management (Async Storage) during
- development. Collaborated with a team to ensure smooth integration and functionality of applications.
- Created an Android-based Bluetooth chat app for offline communication, featuring text, image, and data transfer capabilities.
- Demonstrated expertise in Bluetooth connectivity, API handling, and Git version control.
- Utilized SSR, REST API, Axios, and GraphQL for efficient data retrieval and management & gained proficiency in Figma design conversions.

Skills: React-Native, Styled Components, React Native Hooks, React Native Props, React Native UI, React Native Libraries, State Management, Api Handling, GraphQL, NPM, Git, REST API, Axios, Figma

Web Development Intern (Remote)
July 2023 - Aug 2023

Intern.pk | Islamabad, Pakistan

- Developed a responsive COVID-19 Screener Web App based on a Figma design, utilizing a technology stack that included HTML5, CSS3, JavaScript, jQuery, and Bootstrap. This app provided a user-friendly interface for health assessments during the pandemic.
- Created a responsive webpage clone to gain insights into viewports and responsive design conversions. Additionally, implemented asimple login page based on a provided Figma design, showcasing adaptability to various screen sizes and resolutions.
- Leveraged WordPress for the e-commerce project, showcasing skills in content management, plugin integration, and customization to meet specific business needs.
- Gained practical experience in responsive design principles and viewport handling, ensuring seamless user interactions across different devices and screen sizes.

Skills: HTML5, CSS3, Bootstrap, JavaScript, jQuery, PHP, WordPress, Figma

Software Development Intern (Onsite)
June 2022 - Sep 2022

Teresol Pvt. Ltd | Islamabad, Pakistan

- Designed and implemented backend microservices for a Habib Banking Ltd System.
- Develop RESTful APIs using frameworks such as Quarkus (Java)
- Implement Core java concepts to ensure the security and authentication of user data.
- Troubleshoot and debug issues as they arise and ensure timely resolution.
- Worked closely with their backend developers & DevOps Engineers to ensure seamless integration of backend system.
- Developed a Quarkus (Java) server for real-time data sharing between users.
- Wrote a universal bash script for the finding the response time of microservices.

Skills: Java, Quarkus, Rest Api's, Microservices, Docker, Kubernetes(K8), Postman, Bash

EDUCATION

Bachelor's Degree, Computer Science
Comsats University Islamabad, Wah Campus | Pakistan

2020 - Present
